Matthew Cuin

Software Engineer

Atlanta, GA | (404) 769-2700

MatthewCuin.com | github.com/matthewcuin | linkedin.com/in/matthewcuin | mattheew1@gmail.com

Creative software engineer with the ability to pick up new languages and technologies as needed. Prior to being a software engineer, I worked as a granite installer craving to do more with my life and create a career where creating is limitless

Software Development Skills

- JavaScript, HTML, CSS, Node.js, React, Express, Redux, RESTful API, PostgreSQL, Sequalize, Bootstrap.

Education

DigitalCrafts | Certificate in Software Engineering | Atlanta, GA   April 2019 – November 2019
- Software engineering training program covering full-stack development including, but not limited to JavaScript, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.

Software Development Portfolio

Tech-Jobs | github.com/van-/tech-jobs   October 2019
- Building a Job search platform for devs in need a helping hand with their projects.
- Built with Ejs, Handlebars, Node.js, Express, and PostgreSQL
- Learned Handlebars through self-study to build a project using technologies outside of course scope

Oak | oakshift.com | github.com/MatthewCuin/capstone-project   November 2019
- Only developer creating an application to manage employees
- Built with React, Bootstrap, Node.js, Express and MongoDB
- Learned MongoDB throughout the project finding it more convenient for me to create and learn

Work Experience

Granite Installer | Global Home Construction | Toro Granite
- At Toro I fabricated, Templated, Installed, helped with customers
- At Global Home I'm mainly an Installer.
